TAN JOINS IN THE FIGHT AGAINST HUNGER IN MYANMAR

Travel Advantage Network raises funds in support of Share Our Strength®

MILLERSVILLE, MD (August 6, 2008) – Travel Advantage Network (TAN), a nationwide leader in wholesale vacation accommodations, has joined in the fight against hunger in Myanmar through its support of Share Our Strength. TAN recently raised close to \$1,000 for Share Our Strength, through fundraising activities including a garage sale, employee theme days and games, bracelet sales, raffles and other activities that influenced employee participation towards this worthy cause.

In the spirit of the fight against hunger, employees also sold orange ribbons to coincide with this year's National Hunger Awareness Day. Donations will support Share Our Strength's efforts to provide food to the citizens of Myanmar.

"Each month a different TAN employee initiates events that support a worthy cause," said TAN President Brad Callahan. "Their community commitment and dedication to reaching out to those in need is what makes our employees unique. We have a very special family here that we are proud to call TAN."

"TAN employees recently helped Share Our Strength provide critical food relief in Myanmar. Their efforts also helped increase awareness of hunger overseas and here at home," said Margie Fleming Glennon, Share Our Strength's Communications Director. "We applaud the ongoing efforts of TAN's employees to help those in need, and we are grateful to have been selected as a receiving charity."

TAN support of Share Our Strength was lead by Shelly Chamberlin, who organized the group activities which resulted in the funds raised. TAN employees rotate each month by choosing an organization they wish to support; then fellow employees enthusiastically rally behind that organization.

In addition to their support of Share Our Strength, since January 2008 TAN employees have raised and donated thousands of dollars to help in the fight against muscular dystrophy, congenital heart defects, autism, arthritis and juvenile alopecia.
